

SUCCESS MAIL

EDITOR'S MESSAGE

Hello guys! Thank you so much for your appreciation to our first newsletter. Your feedback matters a lot to us, and we will always be looking forward to your comments/criticism and suggestions. So please continue doing that.

"What we want is to see the child in pursuit of knowledge, and not knowledge in pursuit of the child."

Knowledge is power. It is an imperceptible weapon for every human being to protect themselves from the dark side of the world. So basically, knowledge is something every child should seek. Not because of it being a compulsion or an obligation, but because it is something we grow with. It should be as important to us as food is to us, or even oxygen!

So with such a vision Success Factor educates and advises its students to recognize the value of knowledge. To understand that knowledge alone can let you overcome your shortcomings and make you see the world with a better perspective!

Now let's see how you find this edition of ours.

Continue...

FEATURED UNIVERSITY

THE UNIVERSITY OF BRADFORD received its Royal Charter in 1966 but its origins date back to the 1860s. Today the University has around 10,000 students. Bradford has always been a forward-thinking, modern and student-orientated University. University of Bradford gives you environment that is healthy, safe, protective, gender sensitive, and provides adequate resources and facilities.

The Engineering School of University of Bradford offers a range of University degree courses modified to meet your interests and entry qualifications. Graduates of Engineering School of Bradford are in strong demand. Bradford degree is definitely your start to a successful career.

NEWS: Now Success Factor provides you the opportunity to get registered with British Council for IELTS without any hassle -----come to us and we will arrange IELTS date for you with British Council.

JOKES

An accountant is having a hard time sleeping and goes to see his doctor. "Doctor, I just can't get to sleep at night."

"Have you tried counting sheep?"

"That's the problem - I make a mistake and then spend three hours trying to find it."

LEARNING TODAY

PROVERB: A little knowledge is a dangerous thing

MEANING: A small amount of knowledge can mislead people into thinking that they are more expert than they really are.

CHALLENGE YOUR BRAINS (RIDDLE):

What is it that you can keep after giving it to someone else?

ANSWER: Your word!

THE CREATIVE MATTERS

Article shared by, Saad Tahir (from Lahore).

A DREAM ANALYSIS : I believe that dreams are very metaphorical. Not all of course, but some particular dreams definitely are. They are the reflections of our mental ongoing. And like Freud's approach, nothing we do occurs by chance. Every dream and thought maybe motivated by our unconscious at some level. All of this and such theories have been proven time and time again. And so, what I want to share with you here is another aspect to dreams; their meanings. Did you know that our dreams could indicate anything? Have you ever had any episodes occurring in your dreams quite occasionally? If not, then you might have observed some dreams to be quite commonly seen by people around you.

Yes, some dreams are very common, being consequential; and meaningful. And that is because of the state of affairs human nature experiences, irrespective of the social divisions. For example, we all see animals every now and then in our dreams. But there is a difference in any animal and a wild animal, because wild animals mostly denote troubles or fears, even misfortune. Household animals such as pets usually mean good fortune. Their behavior indicates the meaning of the dream. For example, a ferocious animal is a word of warning, whereas a peaceful one indicates cheerful times. Animals often symbolize the actual side of the dreamer's relationship with the animal, which tells us how much control they have over themselves.

Thank you! Saad, for your contribution, we hope that you continue to share your work with us.
