INTRODUCTION

We, at Success Factor are delighted and excited to launch our first ever newsletter! Everything you ever had in your mind about education, you will find it all, right here!! Let's begin the expedition. Here's what we have for you this week...

'Education is simply the soul of a society as it passes from one generation to another.'

It is indeed very interesting to note, how we form opinions about the importance of education in our lives. All of us, or let's say, most of us tend to have preconceived notions about its certain values. Isn't it based on our social scenarios, prejudices and limited knowledge? It is either because of how things are portrayed by people around us or the way only certain attributes are highlighted, hiding all other possible facts about them.

Higher education although, is treated as not so compulsory in some cultures, but one cannot deny the fact that it is what gets you through the real world. Who doesn't wish to seek better and higher education? We all do, and why not? But what is better, just higher education or higher education at a much better and most advanced place? I am sure we all know the answer.

So what we offer here is not just options for your education, but quality of education. We offer, what we believe to be is the best for our students, because our students come first in everything.
